# COMPANY OVERVIEW

## Keeping Florida Safe Since 1987

Sprinklermatic is a non-union/open shop, state licensed, bonded and insured, Fire Sprinkler and Certified Alarm System Contractor. We have been doing business for over 34 years throughout Florida. We provide design services, P.E. signed & sealed submittals, fabrication, installation, ongoing maintenance and inspections of fire sprinkler and fire alarm systems. Our goal is to provide our clients with the very best service and most competitive pricing available.

### Experience

The Sprinklermatic team has over 600 years of executive, estimating and design experience. This knowledge allows us to be diversified in the type of work we're qualified and capable of performing. Since 1987, we have been designing, fabricating, installing and servicing fire protection systems in residential and commercial buildings of all sizes.

### Strength

Sprinklermatic maintains a high-bond capacity (\$20 Million Single and \$50 Million Aggregate), with Travelers Insurance; an A+XV AM Rating with additional job references available upon request. We are very strong moving through this economy; as we have an established an untouched One Million Dollar (\$1,000,000.00) line of credit, strong financials and a healthy backing.

### Culture

When you hear "family first" in the work place, it's often cliché. At Sprinklermatic we make no bones about how we say it, "family first, right after Sprinklermatic" truth be told, the energy and effort that our team puts in everyday allows those moments good or bad to truly mean family first! With corporate commitments such as "required first day of School" and only hiring "good humans" the rest takes care of itself. We are forever grateful to have been mentored and trained to build this business in the same light that it started with humility, honor and a real "Family First" culture!
